

 **SNAME**  
**POWER BOAT**  
**SYMPOSIUM**

MONDAY, OCTOBER 14, 2024 | NORFOLK, VIRGINIA

## SPONSORSHIP OPPORTUNITIES

The SNAME Technical and Research Program in cooperation with the Hampton Roads, Virginia Section of SNAME will host the Sixth Power Boat Symposium on Monday, October 14, just before the start of SMC 2024 in Norfolk, Virginia.

### ALL SPONSORSHIPS INCLUDE:

- Recognition on the SMC 2024 website and mobile app
- Logo placement on slides and signage throughout the Power Boat Symposium

The last Power Boat Symposium was held in the Chesapeake Section, and was always popular, as a major component of the maritime community is devoted to small craft. The Hampton Roads Section is home to the U.S. Navy Combatant Craft Center, designers of small craft, and a vibrant power boating community. This will be a worthy venue for future Power Boat Symposia, which are intended to be scheduled on a biennial basis. The Symposium will be an opportunity for designers, boatbuilders and enthusiasts, together with the research community, to explore and discuss the latest developments in this segment of our industry. It is intended to have interests in all segments utilizing small craft represented including pleasure, naval, commercial and autonomy.
